

FRA Federal Regulations Concerning the Use of Electronic Devices

49 CFR Part 220 Subpart C

General Prohibitions – §220.303

Railroad operating employees (Generally T & E employees - refer to 49 CFR §220.5 for complete definition) shall not use an electronic device if that use would interfere with their safety-related duties or safety-related duties of another railroad operating employee.

No individual in the cab of a controlling locomotive shall use an electronic device that would interfere with a railroad operating employee's performance of safety-related duties.

Personal Electronic Devices – §220.305

Railroad Supplied Electronic Devices – §220.307

Must be turned OFF with earpieces removed when:

- On a moving train
- Any member of the crew is on the ground
- Any member of the crew is riding equipment during a switching operation
- Any RR employee is assisting in the preparation of the train for movement

Note: A railroad supplied electronic device not being used for an authorized business purpose is subject to the provisions of *Use of Personal Electronic Devices* in this regulation.

May only be used for authorized business purposes which must be designated in writing by the railroad

A locomotive engineer operating the controls of a train may **NOT** use a device when –

- On a moving train
- Any crewmember is on the ground
- Any crewmember is riding equipment during a switching operation
- Any RR employee is assisting in the preparation of the train for movement

Use in a controlling cab (freight and passenger locomotives): Railroad operating employees shall **NOT** use a device unless-

- A safety briefing is held between all crewmembers; and
- All crew members agree it is safe to use the device

Use outside freight locomotive cabs is permitted if-

- The freight train crewmember is not fouling a track; and
- All crewmember agree it is safe to use the device

Dead Head Status – §220.311

Use by Dead Heading employees **NOT** in the controlling locomotive:

- May use an electronic device only if the employee is not using the device in such a way that interferes with any railroad operating employee's personal safety or performance of safety-related duties.

Use by Dead Heading employees **IN** the controlling locomotive: Each electronic device must be turned OFF with earpieces removed when-

- On a moving train
- Any crewmember is on the ground (while any safety-related duty is being performed)
- Any crewmember is riding equipment during a switching operation
- Any RR employee is assisting in the preparation of the train for movement

Exceptions to Subpart C Prohibitions – §220.309			
(Must not interfere with any employee's performance of safety-related duties)
